Chess Book for a Beginner to Win Games

If you already know the rules of chess but losing has cut down some of the fun, “Beat That Kid in Chess” puts back the fun. . . . See where you can get a checkmate and where a position is not quite set up for checkmate . . .

Review of Some of the Best Chess Books

How is any publication a “best chess book?” That’s too deep a subject to cover well in this post. What does the reader want from the book? That’s easier to answer.
