

Giant Flying Creature in Spain

In Barcelona and surrounding areas in Spain, in 1990, a large or giant flying creature was reported by a number of eyewitnesses. Now some cryptozoologists and others are trying to explain what happened.

(Cryptomundo) The twentieth anniversary of an unusual and highly original case within Spanish cryptozoology took place a few months ago. In June 1990, a giant bird decided to frighten—with its imposing presence and unpleasant crowing—a sizeable number of Barcelona's residents. . . . According to eyewitness accounts, the bird ranged as far away as 100 kilometers distant from Barcelona. . . . with a wingspan of between 3 and 15 meters, making loud crowing sounds in three different tones, and whose membranous wings were reminiscent of a prehistoric pterodactyl.
